## Low Profile Gas Assist U-Base

Our Low Profile Gas Assist U-Base overbed table is very accommodating. It's not enough for this base to provide an over table space for dining and activities. The design takes into consideration everywhere it could possibly be used. The U-shape base fits easily around bed mechanisms which extend to the floor. The low profile also allows for placement under recliners and side seating when patients are out of bed. By moving it closer than raised overbed table bases, users can engage in activities more comfortably. This overbed table base is also height adjustable so users can rest their arms and reduce back stress.
